Self-Help Book with a difference:

I read an extract from Arnold Schwarzenegger's new self-help book titled "Be Useful: Seven Tools for Life" I know this book is probably not everyone's cup of tea but even if you only read the extract as I did then it might open your mind.

Just the key points were enough to get my attention.

- **Have a Clear Vision,**
- **Never Think Small,**
- **Work You're A*s Off,**
- **Sell, Sell, Sell**
- **Shift Gears**
- **Shut Your Mouth, Open Your Mind**

Fires in the Traprock area:

With a number of fires in the Traprock region recently it is of great concern that membership of our Rural Fire Brigades is not what it should be. I would like to encourage those who aren't currently members of their brigade to contact their local representative and ask for a Volunteer Membership Application form. I know some brigades require a Blue Card but that shouldn't be a barrier to you signing up as there are a number of positives that come with membership.

Feral Animals in the Traprock:

Even with the number of exclusion fences in the Traprock increasing, I'm hearing reports of wild dog attacks on sheep. I was pleased to hear of the successful day in the Glenlyon area with great support from all the locals. Feral pigs are increasing in numbers which is a real worry for those with young lambs. It has been a tough season for lambing without having the added worry of pigs or dogs.

Vice-President of Traprock

I notice that we haven't filled the position of Vice-President. If you would like to put your hand up for the position, please send an email to the secretary. As you can imagine this position is essential for Traprock to continue well into the future.

Thought for the day:

Don't you just hate it when you can't figure out how to operate your iPad and your tech support guy is asleep. He's 5 and it's past his bedtime.

*Merry Christmas and a Happy
& Healthy New Year to all.*

Till next time.
